Professional Experience

Full-Stack Developer | 05/2024 - Present

eMe Softhouse | Cascavel, Paraná - Remote

I primarily work on CRM, ERP, and POS projects, using ReactJS, Node.js, TypeScript, JavaScript, ExpressJS, Prisma, and PostgreSQL. One of my major professional achievements was the solo front-end development of a WhatsApp replica integrated into a CRM for the solar energy sector, where I implemented advanced communication and collaboration features to optimize client management and operations.

Front-End Developer | 09/2023 - 10/2023

Dix Digital | Mesquita, Rio de Janeiro - Remote

I developed and maintained institutional websites and news portals for various sectors, including the OAB Tocantins website. My responsibilities included implementing enhancements, optimizing performance, and updating content to ensure an efficient and functional user experience, aligned with each client's standards and needs.

Front-End Developer | 07/2022 - Present

Freelancer | Cascavel, Paraná - Remote

I design and develop websites with a focus on custom landing pages for clients across various sectors, including plastic surgeons, traffic managers, and civil engineers. My creations are tailored to drive conversions and convey each client's unique identity, ensuring a high-impact visual and functional experience.
